

# UK-INDIA

## TECHNOLOGY PARTNERING PROGRAMME

INDIA, 7-11 NOVEMBER 2011

Your opportunity to present your company offer in partnership to India.

India is the second largest growing economy, after China, with a rapidly expanding consumer class. The UK has strong ties with India, and UK companies are well positioned to take advantage of this growing export and investment market.

UK Trade & Investment (UKTI) will lead a high profile UK business mission to three of India's leading advanced engineering centres. The focal points of the business mission programme will be meetings with some of India's major automotive and aerospace companies and their supply chains, hosted at their premises.

**This technology partnering initiative will target the technology priorities of Tata and Mahindra & Mahindra in the automotive sector and Larsen & Toubro, Godrej, Bharat Electronics Limited (BEL) and HAL in the aerospace sector.**

**By participating in this Technology Partnering Programme you will be able to:**

- **Access key business development and technical decision makers in India.**
- **Develop and build business partnerships and relationships.**
- **Learn about major projects and business opportunities in both markets.**

### **SITE VISITS**

During the site visits UK companies will present five minute elevator pitches and hold discussions on potential opportunities for future collaboration. The aerospace site visits will take place in Bangalore and Mumbai and the automotive site visits will be in Pune and Mumbai.

### **IMECHE INTERNATIONAL CONFERENCE**

UK automotive companies will benefit from a high level of exposure to a targeted specialist India audience at the IMechE International Conference in Pune. The sessions will examine the latest technical developments and research of leading organisations including Tata Motors, Jaguar Land Rover, Shell, MIRA and Ricardo. Topics for discussion will include fuels, powertrain, hybrid vehicles and electric vehicles.

Institution of  
**MECHANICAL  
ENGINEERS**
